

Four checks before your DM campaign goes live

A compact companion for the seeded CHECKLIST campaign.

1

Offer

Confirm the product title, price, delivery file, and coupon terms match what the conversation promises.

2

Flow

Export the flow pack and verify unique step IDs, unique script names, required stages, and the campaign keyword.

3

Trust

Run lint, typecheck, unit tests, and the production smoke. Keep the demo local unless you replace its public credentials.

4

Attribution

Complete one golden conversation and confirm the order, delivery event, revenue, and campaign appear in Analytics.
